

Behavior Tools

ABOVE ALL ELSE SERVICES is proud to offer the **Behavior Tools Courses**. All classes are highly informative, entertaining and interactive. While the material is consistent with state-of-the-art behavioral research and principles, it is presented in an extraordinarily “user friendly” way. Participants relate easily to the real life examples that are used and the easily understood ways that principles and strategies are explained. The strategies are highly effective and often work quickly. Many participants return to the second class session excited to share stories of how the “Behavior Tool” taught in the previous session worked with their consumer, student or family member.

The Behavior Tools courses are taught in schools, developmental centers, residential centers, day programs and in a variety of other settings. The Behavior Tools methods work well with adults, teenagers and children of all levels of functional skills and verbal abilities, including those without any spoken communication.
